This Action is responsive to the communication filed June 27, 2005.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 15-17, 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by WO '157, of record.

WO '157 shows a faucet where body 12 is read as the fitting housing having inlet 22a, for example, elements labeled 54 and 56 are read as the receiving insert, see Figure 3, and 20 in Figure 3 is the control cartridge. Spout 14 or 14D is read as a dish in that it is reminiscent of a butter dish.

Claims 9-14, 18-19, 3, 7-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Fox whose telephone number is 571-272-4912. The examiner can normally be reached on Monday-Saturday from 10am-6pm (Hoteling Program).
